

Introduction of Covid certificate obligation in Switzerland from 13.09.2021

Due to the new federal decree on pandemic containment, the following official order will apply from next Monday, 13.09.2021:

Hotel guests who wish to visit our hotel bar, the lobby or our restaurant "Josephine" must be tested, vaccinated or recovered. Otherwise the mask obligation applies. Guests arriving without a test or certificate are not allowed to enter either the one or the other area without a mask and will not be allowed to remove it.

We are obliged to check this certificate on arrival.

What does this mean for our guests?

Unfortunately, our premises do not offer the possibility to separate groups of guests into "Covid certificate or not "Covid certificate".

For guests arriving without one of these 3 certificates (vaccinated, recovered, tested), the following applies:

- Stay in the hotel only with mask, which may only be taken off in the own hotel room.
- Breakfast only to go (our offer coffee and croissant)
- Welcome drink only in the room or in the garden, as long as the weather permits.
- Takeaway offers from suppliers in the region may also only be eaten in the hotel room.

We can understand the considerations of the federal government to contain the pandemic, but our hotel does not have the capacity to offer a room service or to ensure constant controls in front of the restaurant or bar.

Therefore, until further notice, we can only accept reservations for guests with "Covid certificate".

Thank you for your understanding.

You are not vaccinated or recovered and want to visit our hotel? Here you will find the list of test centres in Basel:
